

The Outer Space Security and Development Treaty of 2012

CREATORS

Below is the information and relevant data for the creators and compilers of “The Outer Space Security and Development Treaty of 2012. As the Treaty was not put together in any one point on the Earth, we have chosen a point that most closely represents the center of the Earth. As according to Europa.com and multiple sources “The Pyramid is located at the exact center of the Earth's land mass. That is, its East-West axis corresponds to the longest land parallel across the Earth, passing through Africa, Asia, and America. Similarly, the longest land meridian on Earth, through Asia, Africa, Europa, and Antarctica, also passes right through the Pyramid” we considered it to best represent all 6 creators.

To us it is also the most appropriate location for two other reasons: 1 – we believe the Great Pyramid and its two sister pyramids depicting the Orion’s Belt in the constellation Orion represents the ancients connection to the stars – 2 – The Great Pyramid is acknowledged as the oldest and for several millennia the tallest structure on earth. Energetically all of these reasons mean that the Great Pyramid is a connecting point on earth on so many levels. Another interesting co-incidence for us was the number of people involved in the creation of the Treaty; six. According to Geomatria in the Cabala, the number six represents the element carbon, which again represents every living thing on earth.

Employing the quantum theory that the map is based on, we are connecting every person on the map's intent for World Peace to keep our precious planet surrounded in the consciousness of Peace. Following the information on the creators of the Treaty is a copy of the Treaty that Dr. Carol Sue Rosin with her delegation is taking to the nine world leaders to sign for you to review.

DR. CAROL SUE ROSIN

The Founder for the Institute for Security and Cooperation in Outer Space, ISCOS

World Peace Ambassador, International Association of Educators for World Peace, IAEWP (NGO, UN-ECOSOC)

Dr. Rosin is an educator, perhaps best known as the original political architect of the movement to stop the Strategic Defense Initiative (SDI) and Anti-Satellite Weapons (ASATs). Carol became the first woman executive in the aerospace industry, a Corporate Manager at Fairchild Industries, a U.S. aerospace company, where she was also spokesperson for the late Dr. Wernher von Braun, the "father of rocketry." With von Braun, Carol coordinated the award-winning "It's Your Turn" educational program to motivate youth, women, and minorities in fields of science and technology as they could be applied to achieving world peace in a clean and safe environment for all. Their program won various awards including the Aviation Writers Award, Science Teachers Gold Medal, and others. Rosin helped set up the ATS-6 satellite educational and medical training programs across the U.S. in Appalachia, the Rocky Mountains, and Alaska, and the

first national and international two-way, audio-visual satellite educational programs in over 20 countries, including 5,000 villages in India.

Upon leaving Fairchild after the death of von Braun, Carol became the National Chancellor of the International Association of Educators for World Peace (IAEWP), founded by Dr. Charles Mercieca, in consultative status with the UN Economic and Social Council. After bringing several experts to the UN Second Special Session of the Peaceful Uses and Exploration of Outer Space in Vienna, Austria, Rosin founded the Institute for Security and Cooperation in Outer Space (ISCOS) in 1983. In that initial incarnation of ISCOS, the Board included Honorary Board Chairman Sir Arthur C. Clarke, Chairman of the Advisory Board Apollo Astronaut Dr. Edgar Mitchell, and Advisory Board members that included the late Dr. Rashmi Mayur, the late Dr. Buckminster (Bucky) Fuller, the late Dr. Isaac Asimov, attorney Daniel Sheehan and many others. The new ISCOS Boards are soon to be announced

Dr. Rosin was a witness in The Disclosure Project at the National Press Club in Washington, D.C. in May, 2001. She has appeared in numerous media productions, interviews, and publications, and on YouTube. She has served on technical and non-technical boards including the Advisory Board of The Exopolitics Institute, and among her awards was the United Societies in Space award for her 30 years of Humanitarian Work for the Peaceful Uses of Space for Peace on Earth.

Carol and ISCOS are well-known for having helped start the movement to prevent the weaponization of space, and for educating the public and decision makers about the benefits and opportunities from space R&D, exploration, and living and working in space. As an international consultant and speaker to countless audiences, Carol started the movements to "Stop Star Wars," the "Leaky Umbrella Campaign" first introduced on The Larry King Show on CNN, the "Campaign for Peace In Space," and the "Campaign to Save Outer Space"...which ultimately involved approximately 50 million people.

Her educational work has been focused on various aspects of space issues and actions and their relevance to achieving peace and a clean environment on Earth. Carol is dedicated to banning all space-based weapons. She has spoken around the world regarding civil, commercial, entrepreneurial, and military world cooperation in space in order to reap the potential benefits for all. These benefits include a new kind of security, economic conversion and stimulation, and Space Age solutions to solve urgent and potential problems of health, education, poverty, to aid in the amelioration of natural and man-made disasters, and to transform the war industry into a space industry to end war and finally achieve peace – all in the context of human evolution into a higher consciousness and the truth regarding the existence of Cosmic Cultures.

Born in Wilmington, Delaware, USA, graduate of the University of Delaware, Carol received an Honorary Doctorate for her work in developing countries from Archbishop Solomon Gbadebo, of Orthodox College in Nigeria.

She educates about how to transform the entire war industry and war-based economy, feasibly and verifiably, into a peaceful space industry on Earth and in space and how we can rise to a higher frequency above our old ways of thinking, perceiving, and behaving. Removing the intention to weaponize space is a necessary step in the process to provide us all with a real security system and a stimulated economy based on world cooperation in space.

Dr. Rosin is an official Advisor to the People's Republic of China.

During the Cold War, she visited many countries to speak about the issue of peace in space for peace on earth. She met many times with people on all levels and in many areas of the Soviet Union in order to discuss possible cooperative space ventures and the vitally important ban on all space-based weapons. She returned to the U.S. with the first list of joint U.S./USSR space ventures on which the Soviets had agreed to work. She initiated the first ever visit by nine U.S. Senators to the Soviet Union as well as the first private, off the record, military-to-military meeting between the U.S. and the Soviet Union. She participated in several U.S./USSR citizen diplomat programs in order to encourage cooperation in space and the ban of all space-based weapons. (Both China and Russia have announced they would sign an agreement to ban all space-based weapons.)

ISCOS produced the first legislation introduced in the U.S. House by Rep. Joe Moakley and in the Senate by Sen. Tom Harkin to ban all space-based weapons. At the instigation of Dr. Rosin, a later bill, the Space Preservation Act, was introduced by Rep. Dennis Kucinich. This was the first time in U.S. history that U.S. legislation was accompanied by a World Treaty, the Space Preservation Treaty.

Her book, *SPACE CAREERS*, was co-authored with the late Dr. Charles Sheffield. She created the first international aerospace telephone book for the International Astronautical Federation Congress.

Carol replaced the late futurist/author/scientist Dr. Isaac Asimov as Coordinator of the Space Commission for the World Government of World Citizens founded by Garry Davis. She is a five star General in the First Earth Battalion founded by Lt. Col. Jim Channon, (U.S. Army, ret.)

Carol was a consultant to TRW on the MX missile, weather satellites, and the time/money/management of the space shuttle and applications reports.

Carol has consulted to companies and organizations including General Dynamics, IBM Europe, The National Space Institute, and many corporations, militaries (including the Space Command), intelligence organizations (including the CIA), government offices from the Congress to the White House, to countless NGOs, to high level officials, and grassroots around the globe. Carol has spoken at many meetings of civil, commercial, governmental, intelligence, militaries, and to representatives of NASA and other international space agencies.

Carol created the Space Development Initiative (SDI), as the alternative that could replace the Space Defense Initiative (SDI). Carol was Space Conversion Advisor to Presidential Candidate, the Rev. Jesse Jackson during his run for the White House. Rev. Jackson introduced this alternative SDI vision as part of his U.S. Presidential Campaign Platform. Carol presented the Space Development Initiative vision when she was keynote speaker at the U.S. California Democratic Convention as well as at several Republican and other political meetings.

She testified before both the Senate Armed Services and the House Ways and Means committees in the U.S. Congress, educating about the importance and benefits of banning ALL space-based weapons and transforming the war game into a space game...without space-based weapons

Carol worked with Congressman Les AuCoin to create legislation to prevent the development and testing of anti-satellite weapons (ASATs). She testified before the President's Commission on Space, emphasizing the inexorable link between commercial and military space ventures.

Carol was a Space Action Coordinator and Educator in Buckminster Fuller's "The World Game."

The company Celestis, Inc. afforded Dr. Rosin the opportunity to keep a promise to her friend Dr. Timothy Leary to launch his ashes into outer space aboard a Pegasus rocket from the Canary Islands off the coast of Spain. Also aboard that initial launch were the ashes of other space luminaries, including rocket scientist Kraft Ehrlicke, space physicist Dr. Gerard O'Neill, Todd Hawley, the founder of the International Space University, and the creator of Star Trek, Gene Roddenberry, 26 people in all...an example of a non-weapons, peaceful, international cooperative space venture.

Rosin has authored numerous articles and appeared in many media productions, publications, and interviews talking about replacing war projects with peace projects such as building space habitats, hotels, hospitals, schools, labs, industries, farms, elevators, and craft: endeavors that will provide enormous jobs and profits.

After several years living abroad, working from the local to the presidential level, Dr. Rosin has returned to the USA to introduce an exciting new Plan of Action, the Outer Space Security and Development Treaty of 2011 (See <http://www.peaceinspace.com>) This Treaty was drafted by Dr. C. B. Scott Jones (President, Peace & Emergency Action Coalition for Earth); Apollo Astronaut and Founder of the Institute of Noetic Sciences, Dr. Edgar Mitchell; retired Navy Commander Will Miller; and retired Boeing executive Abe Krieger.

ABE KRIGER

Aerospace Industry Experience and Accomplishments

- 37 year Career with The Boeing Company as Business Development Executive (25yrs.) structural engineer (12 yrs.) with the following highlights and accomplishments:
- Formulated the concept and played a key role in establishing the Boeing-Russian Space Cooperation Program that led to Boeing being awarded a \$ 5.6 billion sole source contract to become the International Space Station Integrator. Established Strategic Relationships with major Russian space organizations.
- Formulated the concept, awarded the contract, and became Program Manager of a multi million dollar Global Nuclear Spent Fuel Storage and Logistics Feasibility Study involving US participation with more

than 16 countries. • Established numerous Strategic Relationships in the areas of Space programs, Energy programs, Computer Aided Manufacturing

- Director of New Initiatives for Boeing Missiles and Space Division • Director of Boeing Engineering & Construction Alternative Energy Programs
- Senior structural engineer on the Lunar Orbiter Program, the first spacecraft to photograph the “backside” of the moon.
- 2 ½ year post retirement part time position as Director of Business Development - Boeing Seattle account for Israel Aircraft Industries (IAI)

Mental Health and Affordable Housing Related Experience and Accomplishments (Retirement)

- Founder and Chairman Emeritus of HERO House, a Clubhouse for Psychiatric Rehabilitation located in Bellevue, WA. Activities included a) preparing the Business Plan; b) fundraising; c) hiring Executive Director; d) leasing facility, etc.
- Principal Consultant to NAMI Skagit in planning the “Skagit Peers Connections Centers” which began operations in Mount Vernon, WA on September 2007.
- Awarded Year 2005 King County Exemplary Award for Innovation by the King County Mental Health Division.
- Led proposal preparation leading to the top ranked award (\$ 308,000) in the Year 2006 State of Washington DSHS procurement for Innovative Services in Mental Health
- Led an initiative to use Accessory Dwelling Units as a viable and affordable housing alternative for low income persons affected by serious mental illness
- Past Member of A Regional Coalition for Housing (ARCH) Citizens Advisory Board • Advisor to NAMI Eastside Board of Directors
- Numerous unpublished papers, computer models, etc. developed in support of the above activities.

Author

- Fictional Novella (River of Life) – Self publication in progress (Feb. 2011)
- Autobiography – Unpublished (240 pg.) with photographs finished in 2008
- Extensive technical writing

Educational Background

- BS – Civil Engineering (University of California at Berkeley- 1958)
- MS- Structural Engineering (University of Washington- 1963)

- MBA- Marketing/ Finance (Seattle University Evening Program- 1971)
- Foreign Languages: Russian and French

Personal Background

- Born in Shanghai, China (Feb. 1936). Naturalized US citizen
- Married 50+ years (Daughter, Son and 3 grandchildren)
- Tennis player –Past Golf player-Present and future

EDGAR D. MITCHELL, SC.D., CAPTAIN USN

Born: September 17, 1930, Hereford, Texas Designated naval aviator: 1954
 Military test pilot: 1958-1972
 Technical Director, Navy Space Systems: 1964-1965
 Served with NASA and the Astronaut Corps: 1966-1972
 Served on the backup crew for Apollo 10 and Apollo 16 Lunar Module Pilot
 Apollo 14 lunar mission, January 31-February 9, 1971; became sixth man to walk on the moon.

BS Industrial Management, Carnegie Mellon University, 1952
 BS Aeronautics, US Naval Postgraduate School, 1961
 ScD Aeronautics and Astronautics, Massachusetts Institute of Technology, 1964

EngD Engineering, New Mexico State University, 1971 (honorary)

ScD Engineering, Carnegie Mellon University, 1971 (honorary)

ScD Engineering, University of Akron, 1979 (honorary) PhD Embry-Riddle University 1996 (honorary)

- Founder, Institute of Noetic Sciences, 1973; Chairman 1973-1982

President, Edgar Mitchell Productions, 1980—

Public Speaker, Lecturer, Consultant, Author, 1972---

Author: "The Way of the Explorer" Putnam NY '96; "Psychic Exploration: A Challenge for Science", Putnam NY '74; numerous scientific papers and articles

Member, Society of Experimental Test Pilots 1966—

Member, American Institute of Aeronautics and Astronautics, 1963-1983

Member, International Platform Association, 1975-1983

Member, Explorers Club, 1972—

Member, World Futures Society, 1975—

Member, New York Academy of Sciences, 1975-1983

Member, Radio and Television Correspondents Association, 1972-- (honorary)

- Notre Dame University, Albert Schmidt Lecturer, 1972
- Rotary International Convention, Lausanne, Switzerland, keynote address, 1973
- Outstanding Man of the Year, Carnegie Mellon Alumni, 1972
- Drexel University, Engineering and Science Award, 1974
- Kappa Sigma Man of the Year Award, 1972
- Space Hall of Fame, inducted 1979
- Kalamazoo College, John Fetzer Lecturer, 1979
- Lowell Thomas Man of the Year Award, Explorer's Club, 1980
- United Nations, New York, Earth Day Address, 1992
- International University, Buckminster Fuller Lecturer, 1993
- Astronaut Hall of Fame, inducted 1995
- NBC Dateline, feature story, April 1996
- Sightings, feature story, October 1996
- Nominee, Nobel Peace Prize, 2005

PROFESSIONAL ACTIVITY

My professional life has always been that of an explorer but it is divided into two distinct phases, the first encompasses the early years as a military officer, test pilot, engineer and astronaut exploring the outer limits of the physical world. The second phase has been that of a student, researcher and teacher exploring the inner experience with both subjective and objective methods. My dual interests have been life long, but the first was predominant during the early years and the second became dominant after the lunar exploration.

1995-: Research, writing and publication of the “Way of the Explorer” with emphasis on exploring the Dyadic Model as an alternative to the Cartesian Duality. Research and publication of articles on the nature of the quantum hologram and its potential as the non-local mechanism for intuitive and other “paranormal” perceptions. Serve of the Board of Directors of the Institute of Noetic Sciences, the Board of Trustees of the Astronaut Scholarship Fund. Paid speaker/lecturer approximately 20 weekends a year in the US and abroad.

1992–1995: Independent study, research and teaching experimental learning strategies, adaptation of the methods developed during three decades by Lozanov, Suzuki, Shichida, Welch et al. Accelerated learning techniques, whereby individuals from infancy to old age may better utilize latent capabilities to absorb, retain, recall and utilize large quantities of information, with enhanced creativity, greater productivity, and an expanded sense of well being have been among the overlooked discoveries of the world of education. In response to the information explosion of modern times these alternative learning strategies are now being seriously studied as partial answer to the dilemma of "information overload" and the breakdown of the educational infrastructure. My interest in these methods is the natural outgrowth of twenty-three years of study of the processes and capabilities of human consciousness.

1991--1993: Created and taught a lecture/workshop series for corporations and the public on paradigm shift, societal alternatives and sustainable futures. This material has been presented to more than 1000 people in full day workshops, and in lecture form, to large audiences in the U.S., Canada, the U.K. and Mexico. Material from this series is still requested by program planners seeking to present an innovative program for their organizations. Responses to this lecture/workshop series focused my attention on the need for developing new techniques for learning in the "information society".

1988-1991: Sabbatical and semi-retirement. This was a period of reflection and study. Professional activity consisted of a limited number of speaking engagements and consulting tenures with business organizations.

1983-1987: Consultant and Project Manager. Constructions Mecaniques du Normandy, Paris, France. First as a consultant, then as project manager I was responsible for the reorganization of the Information Management Systems of this old line French ship building company. The major task was to modernize the financial management with a new information system and to install new computer-aided design and computer-aided manufacturing to the shipyard operations. This \$10 million project was nearing successful completion when the company was sold to new owners in 1987.

1983: Co-founded with astronaut Russell Schweickhart the Association of Space Explorers. From modest beginnings in Paris with three astronauts and four cosmonauts, then twenty-three astronauts and cosmonauts the following year, hosted by Constructions Mecaniques du Normandy, the ASE included in 1994, over 250 individuals, 95% of all living humans who have flown in space. With international headquarters in Switzerland and local organizations in the United States, Russia and Europe, ASE has annual meetings in different nations of the world to present educational and environmental programs to the public, and to promote peaceful and cooperative exploration of space. It is the professional organization for spacefarers of all nations.

1980--: President, Edgar Mitchell Productions. This entity was formed to house my lectures, workshops and consulting practice.

1979-1989: Director, member of the audit committee, Steego Corporation, NYSE (STG); Served as director and consultant to the chairman of the board. Steego is a mini-conglomerate with operations in trailer manufacturing, auto parts, industrial machinery and paper products. Its public shares were acquired and Steego was privatized in a friendly take-over in 1989.

1977-1978: Chairman of the Board and major stockholder, Information Sciences, Inc. Served as chairman of the board during acquisition by new investor group -- Directed program of reorganization and selection of new permanent management team.

1973--: Founder and Chairman of the Board (until 1982), Institute of Noetic Sciences (IONS), Sausalito, CA. I founded this non-profit foundation to conduct and sponsor research programs in the nature of human consciousness. It was founded to explore the upper ranges of human potential in order to learn new models for improving the human condition and, further, to thereby discover new paradigms that might produce sustainable societal alternatives. In the thirty-two years of its existence, IONS has become an international organization with in excess of 40,000 loyal members, numerous publications

and research programs, and an annual conference attended by approximately 2000 members (1994). Though no longer active in day-to-day operations, I remain as a member of the board of directors.

1972--: 1972 was the beginning of the second phase of my professional career. It has centered on activities as a lecturer, consultant, author, independent scholar in consciousness studies, human potential and societal alternatives. My fundamental motivation for more than two decades has been to assist and support the discovery, creation and dissemination of better models for understanding human behaviours and capabilities which could lead toward sustainability of global civilization. It has been increasingly clear during these past two decades that the dominant paradigms embraced by the world's major cultural traditions and diverse national socio/economic/political policies do not meet the test of sustainability beyond the early years of the 21st century. My desire is to make a difference in the likely outcome and to help give birth to a paradigm emphasizing sustainability.

1966-1972: U.S. Astronaut Corp. I flew the Apollo 14 Lunar Expedition to the Fra Mauro highlands of the moon, with Admiral Alan Shepard and Colonel Stuart Roosa, January 31-February 9, 1971. I became the sixth human to walk on the moon. In addition, I served on the backup crew of Apollo 10 and Apollo 16. I served as team leader for the astronaut group selected in 1966. I retired from government service in October 1972.

1965-1966: U.S. Air Force Aerospace Research Pilot School. Preparation for astronaut duties, and certification as test pilot. I served as an instructor in advanced mathematics and navigation theory for astronaut candidates.

1964-1965: Technical Director for Naval Space Systems Division, Los Angeles, CA. I provided liaison between the U.S. Air Force and the Department of the Navy on military space development and exercised technical control over U.S. Navy manned space planning efforts.

1959-1964: Postgraduate study: US Naval Postgraduate School and the Massachusetts Institute of Technology.

1958-1959: Test pilot and tactics specialist for USN research and development squadron.

1952-1958: Operational pilot and squadron officer with the U.S. Navy both ashore and aboard aircraft carriers.

Education

- Massachusetts Institute of Technology, ScD, Aeronautics and Astronautics, 1964; majors in physics and mathematics, minors in instrumentation and astronomy; Dissertation: "Guidance of Low Thrust Interplanetary Vehicles".
- US Naval Postgraduate School, BS, Aeronautics, 1961; major in performance and aerospace testing, minor in mathematics.
- Carnegie Mellon University, BS, Industrial Management, 1952; majors in industrial administration and accounting, minors in electrical engineering and engineering analysis.

- USAF Aerospace Research Pilot School, Edwards Air Force Base, California, 1966; Certification in advanced research aerospace vehicles and experimental aircraft.

HONORS AND AWARDS

- Presidential Medal of Freedom
- USN Distinguished Service Medal
- NASA Distinguished Service Medal
- NASA Distinguished Service Award
- NASA Group Achievement Award (three times)
- USAF Aerospace Research Pilot School, First in Class Award
- Medal of the City of New York
- American Astronautical Society, Flight Achievement Award
- Arnold Air Society, John F. Kennedy Award for Space Exploration
- Carnegie Mellon University Alumni, Outstanding Man of the Year, 1972
- Kappa Sigma, Man of the Year Award, 1972
- Adventurers Club, Gold Medal Award for Exploration
- Explorers Club, Lowell Thomas Award for Explorations in Human Consciousness, 1980
- Drexel University, Engineering and Science Award for Explorations in Consciousness, 1974
- Space Hall of Fame, inducted 1979
- Astronaut Hall of Fame, inducted 1995
- Nobel Peace Prize nominee, 2005

Personal

Divorced - One son, Adam Blakemore Mitchell from marriage to Sheilah Ann Sisco Ledbetter; two children from previous marriage to Louise Elizabeth Randall: Karlyn Mitchell-Pearce, PhD, Elizabeth Mitchell Kendall; three adopted children: Kimberly Ann Mitchell, Richard Paul Mitchell, Mary Beth Mitchell Johnson; nine grandchildren.

MAJOR PUBLICATIONS, FILM AND ADDRESSES

- "Guidance of Low Thrust Interplanetary Vehicles", doctoral dissertation, Massachusetts Institute of Technology, 1964
- "Mission Report of Apollo 14", Co-authored with the NASA Mission Control Team, 1971
- "Geological Results of Apollo 14 Mission", Co-authored with the USGS Research Team, 1971
- "An ESP Test from Apollo 14", Journal of Parapsychology, Vol 35, No 1, June 1971
- "Awareness and Science", paper presented to the 125th meeting of the American Psychiatric Association panel of the APA Task Force on Transcultural Psychiatry, 1972
- "Consciousness--the Ultimate Enigma", Albert Schmidt lecture, Notre Dame University, College of Science, 1972
- "Planetary Problems and Planetary Fulfillment", address to the Nightingale-Conant Human Resources Convention, 1972
- "Awareness in the New Age", address to the Mind Dynamics Convention, 1972
- "Global Consciousness and the View from Space", Spiritual Frontiers, vol 4, no 4, 1972

- "Awareness and Science", *Science of Mind*, January, 1973
- "Noetics, the Emerging Science of Consciousness", 1973, private printing,
- "Models of Consciousness", *Firing Line*, dialogue with William F. Buckley, Jr. 1973
- "Planetary Problems and their Interrelationships", keynote address, Rotary International Convention, Lausanne, Switzerland, 1973
- "Death and Consciousness: New Concepts in the Space Age", *Philosophical Aspect of Thanatology*, Columbia University Press, 1973
- "Planetary Problems and the View From Space", *The Adventurer*, 1973
- "Death and Consciousness", *Journal of Altered States of Consciousness*, vol 1, No 1, 1973
- "A New Perspective on Man", *The Way of the World*, October, 1973
- "Psychic Exploration, A Challenge for Science", with John White et al, G.P. Putnam & Sons, 1974
- "Spaceship Earth", article, *Science of Mind*, January, 1974
- "Inner Spaces" Edgar Mitchell, host, film and video, Hartley Productions, 1974
- "The Ultimate Mystery" Edgar Mitchell, host, film and video, Hartley Productions, 1974
- "Why Scientists take Psychic Research Seriously", interview, *Business Week*, January, 1974
- "Consciousness Research, A New Frontier", invited lecture, Harvard University, 1974
- "The Consciousness of Edgar Mitchell", interview, *Human Behavior*, January, 1974
- "Outer Space to Inner Space, an Astronauts Odyssey", interview, *Saturday Review*, February 22, 1975
- "Noetics, Outer Space to Inner Space", John Fetzer Lecture, Kalamazoo College, May, 1979
- "Future Directions in Science", Convocation address, Dedication Ceremonies, University of Akron, September, 1979
- "Implications of Mind Research", paper, Congressional Clearing House of the Future, U.S. Capitol, December, 1979.
- "When Foxes Guard the Henhouse", 1987, unpublished manuscript on the deleterious effects of the Strategic Defense Initiative. Excerpts from this manuscript provided to the Office of Technology Assessment, U.S. Congress, during research and debate on SDI.
- "Consciousness Research and the Paradigm Shift", address, Institute for Consciousness and Physics, Paris, 1991
- "Change and the New World Order", seminar/workshop series, 1991, presented in numerous sessions of corporate and organizational training.
- "Edgar Mitchell", interview, *Visions* magazine, July, 1992
- "Where to Now", article, *Science of Mind*, August, 1992, vol 65 No 8.
- "Paradigm Shift and the Global Dilemma", Buckminster Fuller Lecture, Southern International University, San Diego, CA, January, 1993
- "Toward Understanding the Source of Values", paper, 4th International Conference on Science and Spirituality, Uxmal, Mexico, January, 1994
- "The Shifting Needs in Education", workshop, Greater Edmonton Teachers Convention, Edmonton, Alberta, Canada, February, 1994
- "Space and the Environment", television interview on *Animal Adventures* with Jack Hanna, episode 26, 1994
- "A Dyadic Model of Consciousness", invited essay, 1995, *World Futures*, Vol.46 pp. 69-78
- "The Way of the Explorer" with Dwight Williams, G.P. Putnam's Sons, New York, 1996; revised edition; Richter, Buenos Aires, 2001
- "Science and Consciousness Meet!" with Peter Marcer, Ph.D. 1997; Institute of Noetic Sciences Monograph; Report on theory and experiment with the quantum hologram as a mechanism for intuitive and mystical functions.
- "Space Flight as an Anticipatory Computing System" CASYS '99 Third International Conference; 2000 American Institute of Physics 1-56396-933-5/00
- "Nature's Mind: The Quantum Hologram"; *International Journal of Computing Anticipatory Science*, Vol. 7, 2000; pp. 295

- “The Physical Nature of Consciousness” with Peter Marcer, *Advances in Consciousness Research*, 2001, Vol 19, ISSN 1381-589X
- “Self-reference, the Dimensionality and Scale of quantum Mechanical Effects, Critical Phenomena and Qualia.”, with Peter Marcer, Walter Schempp, *International Journal of Computing Anticipatory Systems*, 2002, Vol 13, pp. 340-359

CECIL B. (Scott) JONES CMDR USN

Dr. Jones is founder and president of the Peace and Emergency Action Coalition for Earth. The principal function of P.E.A.C.E. is to oversee the development of the global Center for Sustainable Peace and Development system. Previous to this he was co-founder and president of the Human Potential Foundation. This was established in 1989, and conducted research into all conditions of humankind: physiological, psychological and spiritual, to assist the individual to achieve the highest levels of human potential in body, mind and spirit in order to compete and cooperate at personal excellence throughout life. Prior to this position he was Special Assistant to Senator Claiborne Pell from January 1985 until March 1991. Retiring as a Commander in the U.S. Navy, approximately half of his thirty-year naval career was spent in intelligence service overseas and in the United States. In post-navy careers he has taught at the university level and worked in the private sector research and development community involved in U.S. government sponsored projects for the Defense Nuclear Agency, Defense Intelligence Agency, U.S. Army Intelligence and Security Command, and other organizations.

Intelligence Experience

As Assistant Naval Attaché and Naval Air Attaché to New Delhi, India and Katmandu, Nepal from January 1965 to June 1967, he was involved in intelligence collection and provided intelligence support to defense attachés throughout Southeast Asia, the Middle East and North Africa. This tour was followed by assignment to the Naval Scientific and Technical Intelligence Center where, as Head of the Missiles, Ordnance, and Astronautics Division, he directed the production of technical intelligence reports for the Navy and Defense Intelligence Agency at all classification levels. During this period he was Chairman of the Naval Missile Group, an interagency group that supported the Guided Missile and Astronautic Intelligence Committee. As Chief of the Navy’s Intelligence Anti-Ship Missile Task Force, he directed the effort that provided intelligence support for a critical anti-ship missile defense research and development effort. During this time he was a briefer to the President’s Scientific Advisory Committee, and testified before House and Senate committees and sub-committees of the Armed Services on technical naval intelligence.

Other intelligence assignments include three years as Chief of the Targets Development Branch in the Intelligence Directorate of Headquarters, U.S. European Command, and in intelligence related assignment in the National Military Command System Support Center.

Research Experience

Dr. Jones managed the Nuclear Test Personnel Review program under contract to the Defense Nuclear Agency. This program quantified the degree of radiological hazard incurred by Department of Defense personnel involved in atmospheric nuclear testing between 1946 and 1962. Extensive document search and retrieval from a large number of libraries, archives and record centers was involved. The recovered information and technical data was synthesized and converted into histories written for the layperson of each nuclear test operation

He participated in contracts with the Defense Intelligence Agency (DIA) in a project instructing analysts in quantitative methodologies and in development of self-paced learning modules on various methodologies including Event Sequence Network Analysis and Interpretative Structural Modeling. Also for the DIA he was involved in the transfer of advanced quantitative methodological software technology from the Defense Advanced Research Projects Agency to DIA workspaces. For the U.S. Army Intelligence and Security Command he participated in systems design for increasing ADP support.

Of particular significance for the establishment of the global network of regional Centers for Sustainable Peace and Development, was an assignment as Chief, Procedures Branch, Data Division, National Military Command System Support Center (NMCSSC) February 1961 to August 1963. In this assignment he directed and managed activities concerned with the research, analysis, collection, and evaluation of all operational inputs to NMCSSC systems and with the system design of a computer model for depicting the Status of Forces and the Monitoring of Operational Plans (SOFMOP). Additionally he designed and then developed the database in support of this system. The principal operational plan monitored by SOFMOP was the Single Integrated Operational Plan (SIOP). The SIOP was the U.S. strategic nuclear attack plan against the Soviet Union, the Warsaw Pact, and the Peoples Republic of China. In order to war game the SIOP, he then was assigned to research and build a database of real U.S. target counterparts to the SIOP target database. This database was used in gaming by a Red Single Integrated Operational Plan (RSIOP). The target category list was extensive, e.g., command and control, industries, communications, transportation, military establishments, ports and cities, etc. His final assignment following the success of the SOFMOP system and the RISOP database development was to assist in the design of the Technical Development Plan for the National Military Command System.

In a subsequent assignment, 1970-1972, to the Intelligence Directorate of the U.S. European Command (EUCOM), he was responsible for another complex computer system design. Based upon a target category weighting system he designed, this program selected potential tactical nuclear targets in

countries of EUCOM interest, but not covered by NATO's tactical nuclear war plan. All categories from the Target Data Inventory (TDI) were considered.

A South Asia area specialist, he has traveled extensively throughout the region. His dissertation was, "How the Indian Lok Sabha Handles Defense Matters: An Institutional Study."

He has led research into applied anomalous phenomena. Networking with the parapsychological community, he has worked throughout the executive branch to address issues of government support for basic parapsychological research, and to consider implications and application of these phenomena.

In 1985, he founded and was president of the Center for Applied Anomalous Phenomena. This non-profit educational and scientific research organization was chartered to conduct research and analysis of anomalous phenomena, their implications and applications. Anomalous phenomena include exceptional human capabilities. This Center was transferred into the Human Potential Foundation.

In 1989, he and Senator Claiborne Pell co-founded the Human Potential Foundation that was involved in a number of research projects. These included a joint research effort with the Chinese Academy of Somatic Science in Beijing, in accelerated bone healing using qi gong; a sponsored symposium conducted by Russian medical scientists on psychoanalytical and psychocorrection computer technologies; a survey of attitudes of medical professionals toward death and the dying process and how these are translated into decisions about treatment of critical and terminal patients; the translation from Chinese of the book: *Collected Works on Qi Gong Science*.

Under the Center for Interspecies Communications, the Foundation conducted Projects Neptune Helper I and II, dolphin research with Atlantic Bottlenose and Spotted dolphins.

A major two-year program funded by Mr. Laurance Rockefeller began with meetings in the Clinton White House to encourage the administration to review the policy it inherited from previous administrations concerning secrecy about extraterrestrial contact with earth, and change the policy to more openness. The president discovered that he was not cleared for that program. Work with Mr. Rockefeller was completed with an international conference, *When Cosmic Cultures Meet*, in Washington, D.C. in May 1995. At the conference a wide spectrum of academic disciplines and interests assessed the implications, preparations and responses for the time when there is no ambiguity about the understanding that higher intelligences from cosmic cultures are meeting.

In November 1998, the Human Potential Foundation was dissolved and its principal undertaking, a global peace initiative, transferred to the newly established Peace and Emergency Action Coalition for Earth, Inc.

Teaching Experience

While in Germany on navy assignment, Dr. Jones taught political science in the University of Maryland overseas program at several Army posts from 1970 to 1972. His terminal naval assignment was at the

University of Kansas as Associate Professor of Naval Science, 1973 to 1975. During this time he also taught undergraduate and graduate courses in the Department of Political Science. Retiring from the navy in 1975, he took a fulltime teaching position in political science at Casper College and the University of Wyoming at Casper from 1975 until 1978. In October 2000, he was a quest lecturer in the Peace Studies Program at the University of Missouri, Columbia, MO.

- Institute for Multi-Track Diplomacy

Current Peace Programs

The principal program of P.E.A.C.E. Inc. is the establishment of a global system of university-based Centers for Sustainable Peace and Development. Over seven years of planning and consultation with academic, political, spiritual, military, intelligence and business leaders has led to the current system design. In November 2002, the University of Jordan was the first school to adopt the Sustainable Peace and Development (SPD) program. Subsequently, Makerere University in Uganda, Dar es Salaam University, and the University of Missouri have become SPD hosts. In 2006, Plan C was added to the

SPD program. It is designed to recruit global universities and Think Tanks to start a dialogue on the consequences to peace, stability and growth when full disclosure of ET/Earth contact is made.

A second program is a recommendation made to President Obama to establish a cabinet level Peace Advisor position and to encourage his global counterparts to do the same.

A third program is draft legislation for a federally funded international scholarship program to establish a Professional Peaceworker Corps.

A fourth program is a proposed Constitutional amendment that would additionally designate the President “the principal Peace Maker of the United States.” This would provide a legal basis for the institutionalization of peace in the United States by the establishment of a Department of Peace.

THE REALITY For sixty-years a counterintelligence program has successfully run against the U.S. public to disinform and mystify the subject of UFOs and Extraterrestrial contact with earth. The SETI program has unwittingly aided that effort. There is absolutely no ambiguity about the reality of Extraterrestrial contact with the world, and its ancient roots are documented by hard archeological evidence

There is more than one disclosure strategy currently underway, and one very likely includes a threat spin designed to favor the military-industrial-congressional complex in the United States. This is certainly detrimental to the country and the world. Other countries are weary of waiting and suspicious of U.S. intentions. An intelligently coordinated disclosure based upon an open dialogue is the path to take.

Without a mature dialogue on the subject prior to formal acknowledgement of disclosure, avoidable fear, chaos and violence will occur.

Even with the dialogue, we will be in for some dicey times, as the return of Nibiru, Planet X, in this century must be addressed during disclosure. Planet X was rediscovered by the IRAS, NASA Dutch Infrared Imaging Satellite in '83 and also covered up. To be complete and as constructively beneficial as possible to the planet, disclosure must include both acknowledgement of the general alien contact phenomenon and our own part alien history. This is a third, mature and robust paradigm which is also being suppressed.

ACADEME Students: Show this to your teachers and professors, talk about it – get into the game – this is the big one – speak up for your future.

Teachers and Professors: It is not too late to learn about what has been deliberately hidden and lied about. No security clearances needed, but courage is required.

Academic Presidents, Provosts, Deans and Principals: Time to stand up and meet the challenges of a fearless academic community pledged to seek the truth and talk about a future with extraordinary opportunities and challenges. You have the primary responsibility to prepare the global population of what disclosure of contact will mean.

RELIGIONS - Quickly learn about our ancient Anunnaki extraterrestrial past, and the gods that came down. The Vatican has taken a public lead on how they intend to survive disclosure. It has officially stated, “The aliens are our brothers.”

Other religions have different opinions. Some evangelical Christians have stated that the aliens are the fallen angels. Whatever you think, believe, hope, or fear is going to be faced with a new reality. It is time to be talking about this. MILITARY AND INTELLIGENCE First of all, complete explanations and justice is due to the citizens abducted as part of the covert counterintelligence program. Amnesty must be considered for the sake of full, free information release and flow. No claims of security can trump the demands of justice.

In support of the new reality you are needed, but in ways vastly transformed from the historical record of your violent and clandestine service.

It will take highly disciplined work in difficult places to reverse the damage that unchecked avarice has done to the Earth. Increasing numbers of humanitarian undertakings will also be required because of the consequences of global warming and higher incidents of violent weather. Returning military from these missions will feel the pride of service to humanity, and this will be one key for admission into the Cosmic Community.

The technical and human capability of the intelligence community will be turned from threat assessments to a new genre – opportunity assessments. These completely unclassified, sources identified, assessments will identify developing opportunities for reconstruction and stabilization of civilization.

GOVERNMENTS AND THE UNITED NATIONS All governments with proof in hand; hold back on the formal acknowledgement of disclosure of sixty-plus years of Earth and Extraterrestrial contact. To minimize fear, chaos and possible violence we need at least six-months of mature dialogue about what disclosure will mean to each country and culture.

.S., Russia, clued country members of the European Space Agency, China, Japan and India, and close allies of this list who have been informed of what your photo satellites orbiting the moon have revealed on the backside of that orb; don't talk about the ET structures there. That will be appropriate later.

All third world countries; get involved. Briefings are available to assist you in gaining a voice to avoid a round of techno-colonialism. If any country deserves a boost from cultures thousands of years more technologically advanced than Earth, it is you. But you must come to the table with knowledge about what to expect.

United Nations, if Earth can prove that it deserves to be invited to join the Cosmic Community, the Nation State system will have undoubtedly undergone a great transformation, and so will have you. To gain admittance into the Cosmic Community, Earth will have to be free of all weapons of mass destruction, and institutional violence ended. Can you keep your plans a secret until after the dialogue has taken place?

P. E. A. C. E. Inc. designs peace and conflict avoidance research and application programs for colleges and universities. Herbert Spencer nailed it when he said, "The great aim of education is not knowledge but action." The issues above are a huge challenge and opportunity for preemptive peace work and conflict avoidance. Our think tank, Cosmic Humanity, focuses 140 years of cumulative intense research, study, participation and experience on illuminating the leading edge of our species development and evolutionary trajectory. We really need to get a dialogue going on the subject before disclosure with a threat spin captures the headlines. Countries, communities, Think Tanks, colleges and universities desiring an extensive briefing on the ancient and modern history of this vital subject, and to engage in a conversation about what disclosure will mean to you and the world contact:

PAUL T. HELLYER

As the former Minister of Defence of Canada, the Honourable Paul T. Hellyer oversaw the integration and unification of the Royal Canadian Navy, Canadian Army, and the Royal Canadian Air Force into a single organization, the Canadian Forces.

Paul Hellyer is an aeronautical engineer, politician, writer and commentator who has had a long, distinguished and varied career.

Former Minister of Defence, Paul Hellyer is one of Canada's best known and most controversial and courageous politicians. First elected in 1949, he was the youngest cabinet minister appointed to Louis S. St. Laurent's government eight years later. He subsequently held senior posts in the governments of

Lester B. Pearson and Pierre E. Trudeau. The following year, after achieving the rank of Senior Minister, he was later designated Deputy Prime Minister. He is the longest serving current member of the Privy Council, just ahead of Prince Philip.

Although Hellyer is well known for the unification of the Canadian Armed Forces and also for his 1968 chairmanship of the Task Force on Housing and Urban Development, Hellyer has maintained a life-long interest in macroeconomics.

Hellyer sat in Parliament as an Independent for several years. In 1997, Hellyer formed the Canadian Action Party (CAP) to provide voters with an economic nationalist option following the collapse of the National Party of Canada. Through the years, as a journalist and political commentator, he has continued to fight for economic reforms. He has authored several books including his most recent and important book, *Light at the End of the Tunnel: A Survival Plan for the Human Species* (2010).

Paul Hellyer was born and raised on a farm near Waterford, Ontario. His extensive business experience includes manufacturing, retailing, construction, land development, tourism and publishing. He has also been active in community affairs including in the arts. His multi-faceted career and expertise in economics, in addition to a near-lifetime in politics, gives Hellyer a rare perspective on what has gone wrong with world economies.

In 1967, Hellyer flew in by helicopter to officially inaugurate an Unidentified Flying Object landing pad in St. Paul, Alberta. The town had built the landing pad as its Canadian Centennial celebration project, and as a symbol of keeping space free from human warfare. The sign beside the pad says:

"The area under the World's First UFO Landing Pad was designated international by the Town of St. Paul as a symbol of our faith that mankind will maintain the outer universe free from national wars and strife. That future travel in space will be safe for all intergalactic beings, all visitors from earth or otherwise are welcome to this territory and to the Town of St. Paul." In September 2005 he became the first person of cabinet rank in the G8 group of countries to state unequivocally that"

"UFO's are as real as the airplanes flying overhead." In 2007, the Ottawa Citizen reported that Hellyer is demanding that world governments disclose alien technology that could be used to solve problems such as that of climate change:

"I would like to see what (alien) technology there might be that could eliminate the burning of fossil fuels within a generation, and that could be a way to save our planet. We need to persuade governments to come clean on what they know. Some of us know they know quite a lot, and it might be enough to save our planet if applied quickly enough!"

"The reality is that extraterrestrial beings have been visiting earth for decades, and probably millennia, and have contributed considerably to our knowledge."

"The United States military are preparing weapons which could be used against the aliens, and they could get us into an intergalactic war without us ever having any warning! "In recent years he has

become more and more interested in the extraterrestrial presence, their superior technology, and the enormous benefits that all could experience from peaceful contact with cosmic cultures.

Paul Hellyer has been one of the most outspoken advocates of our time for the peaceful uses of space, and against the weaponization of space. He is well-respected for having introduced a previous Treaty to ban all space-based weapons.

Today the Honorable Paul Hellyer continues his determined and courageous stance with his call to all UN Nation State leaders to immediately sign and ratify the most vitally important new Treaty, the Outer Space Security and Development Treaty of 2011. This Treaty will ban all space-based weapons and, for the first time EVER in an official Treaty, acknowledge the existence of Cosmic Cultures.

BOOKS authored by the Honorable Paul Hellyer:

- *Agenda, a Plan for Action* (1971)
- *Exit Inflation* (1981)
- *Jobs for All: Capitalism on Trial* (1984)
- *Damn the Torpedoes* (1990)
- *Funny Money: A common sense alternative to mainline economics* (1994)
- *Surviving the Global Financial Crisis: The Economics of Hope for Generation X* (1996)
- *Evil Empire : Globalization's Darker Side* (1997)
- *Stop: Think* (1999)
- *Goodbye Canada* (2001)
- *One Big Party: To Keep Canada Independent* (2003)
- *A Miracle in Waiting* (2010), update of *Surviving the Global Financial Crisis*
- *Light at the End of the Tunnel: A Survival Plan for the Human Species* (2010)

WILL MILLER CMDR USN

Commander Miller is a graduate of Virginia Tech, holds a Master's of Education degree from the College of William & Mary, and a Certificate in National Security Management from the Industrial College of the Armed Forces (ICAF).

He is a former Naval Officer, decorated Vietnam combat veteran, educator, advisor, futurist, and former briefer to U.S. Commanders-in-Chief, and senior Department of Defense (DoD) & White House Staff.

Commander Miller's diverse positions and accomplishments include:

- Advisor to U.S. Space Command & the Supreme Allied Commander – Atlantic for World-War III, nuclear, technological, and natural disaster planning, survival & COOP.
- Senior Technology Support Officer; US Atlantic Command.
- Senior Analyst in future counter-threat planning, directed-energy weapons, space systems, & Navy space war-gaming; SAIC Corp.
- International Counterdrug Operations, detection & monitoring systems, programs, & technology; U.S. Southern Command.
- With the late Sir Arthur C. Clark and Apollo-14 Astronaut Ed Mitchell, served on an Advisory Board for Space Cooperation & Development. active member of the, the American Legion, Veterans of Foreign Wars. Assistant Governor, Rotary International.
- CDR Miller is the grandson of Elton W. Miller, former Director of Aeronautics for NACA, predecessor of NASA.

Although Councillor Tamsin Williams was not one of the creators of the Treaty, we are including her because as she is the Project Consultant for the Outer Space Security and Development Treaty of 2012. Consequently, she is instrumental in the details of getting it signed and ratified.

Councillor Tamsin Williams

Councillor Tamsin Williams, beginning in banking and finance and with over 20 years experience in various local government and political positions and through her work in Parliamentary campaigns in Great Britain, is Project Consultant to the Outer Space Security and Development Treaty of 2011, formulating a Plan of Action for it to be signed into world law.

Tamsin has also worked as a UFO investigator with London UFO Studies and Cornwall UFO Research Group. She helped establish and run a British MENSAs UFO Special Interest Group in the mid-1990s that published a regular newsletter on UFO phenomena and alternative propulsion.

Tamsin has written about and lectured on German Secret Societies and SS research projects, the work of Viktor Schauberger and the alleged work of the Vrill mediums, and on Sacred Geometry and Templar Mechanics.

Well known for her work as a key campaign team member and for her work on the strategic complexities of the political process, Tamsin has delivered and produced important policy in a number of issue areas in real terms. For example, she continually works to raise awareness about the ethical investment of public funds held in local government pension plans, including during the campaign to turn Cornwall into a Green Peninsula.

Tamsin persistently campaigns and organizes to promote healing ventures such as tourism for general well-being.

In her local work, Tamsin has contributed PhD level research on the constitutional history of Cornwall. Among her successes, Cornwall has adopted and supports the International Day of Peace.

The Outer Space Security and Development Treaty of 2012

The Outer Space Security and Development Treaty of 2011 establishes a framework and procedures to assure that space will be a neutral realm from which all classes of weapons are banned and from which no hostile action shall be taken toward Earth or the surrounding Cosmos.

This Treaty invites Nation States to become Signatories to this Treaty and invites all parties, including Nation States, Indigenous Nations and Cosmic Cultures, to commit to plan and assist in the orderly development and implementation of a framework and procedures that will assure and verify that space is and will remain a neutral realm from which all classes of space-based weapons are banned in perpetuity.

The Parties to this Treaty:

Reaffirm the urgency of preventing a destabilizing, threatening, and costly arms race in space,

Recognize that an agreement by Treaty to create a weapons-free space domain to ensure universal cooperation in space will save huge sums that would otherwise be expended for a dangerous and provocative space arms race,

Recognize that eliminating space-based weapons is more easily accomplished by agreement before any further investment is made to place them in position,

Confirm that it is the obligation of all State leaders to ban all space-based weapons including the intention to weaponize space, the moon or any celestial body or to use any space-based technology as a space-based weapon,

Reaffirm the urgent need for agreements on concrete proposals and projects deriving from confidence-building, world-cooperative space ventures which will prevent an arms race in outer space,

Recognize that information and data gained from cooperative space exploration and development will provide unlimited benefits and opportunities to all humankind in areas of health, education, the economy, mutual security, energy, and the environment,

Acknowledge that we are not alone in the universes, that there are Cosmic Cultures that will be important allies for our security and development, and that our national and international policies must reflect this reality,

Acknowledge that from the beginning of nuclear weapons testing, extraterrestrial craft have demonstrated a capability to selectively shut down communications and/or the power of

participating operational units, and have appeared over ICBM fields in several countries causing non-destructive failure of dozens of ICBMs – taking them out of operational status for days,

Realize that the demonstrated capability of extraterrestrial cultures from the multiverse to neutralize any missile or nuclear capability is in itself not a threat message, but does serve notice of our limited understanding of physics and the clearly dangerous consequences of continuing to use destructive technologies,

Affirm that the possibility of reclaiming a peaceful future for humankind and a safe environment on Earth is intimately linked with curbing our violence toward each other and Earth, and with preparing to survive as Gaea heals herself, and that counsel and support from Cosmic Civilizations thousands of years our senior would be exceedingly helpful,

Note that every class of space-based weapons, including weapons of mass destruction or precise destruction, is a symbol of fear for which violence provides no remedy,

Recognize that space must forever be free of man-made hazards, and must be a passageway to the secrets of our past and the challenges of our future,

Are inspired by the great prospects of Earth taking its rightful place in the Cosmos and the citizens of off-Earth realms sharing the fruits of their cultures with humankind,

Reaffirm that preventing placement of space-based weapons will avert resulting consequences, risks, and dangers to peace on Earth and to peace in space,

Believe that world cooperation in space will contribute to developing mutual understanding and to strengthening security based on a new form of verification and enforcement that applies the latest tools of technology for observation and information sharing because cooperative relations build more trust and transparency,

Understand that this space Treaty is now verifiable and enforceable via applying monitoring, observation, and information sharing techniques both existing and forthcoming,

Are inspired by the great prospects, benefits, and opportunities for stimulating economies, jobs, profits, products, and services to solve urgent and potential problems of humans and the rest of the biosphere,

Recognize that our space assets can be protected only by mutual cooperation and verification, and that this Treaty will accomplish this objective,

Realize we are one interconnected and interdependent human species, and we are determined to live in peace with all our neighbors on Earth and in the universes,

Affirm that it is the policy of the Parties to this Treaty to permanently ban all spacebased weapons and to proceed into space cooperatively,

Are convinced that this Treaty will further the purposes and principles of the Charter of the United Nations.

The Nation States Signatories to this Treaty agree to the following Articles:

ARTICLE I

- 1. Each Nation State signing and ratifying this Outer Space Security and Development Treaty of 2011 shall:**
 - a. Implement a ban on the research, development, testing, manufacturing, and deployment of all space-based weapons**
 - b. Implement a ban on the use of space-based weapons the purpose of which is to destroy or damage objects or beings located in space or on Earth**
 - c. Terminate any current research, development, testing, production, manufacturing, and deployment of all space-based weapons**
 - d. Each Nation State Signatory to this Treaty shall support and encourage other Nation States to sign, ratify, and implement the Outer Space Security and Development Treaty of 2011.**
- 2. After the first nine (9) Nation States sign and ratify the Outer Space Security and Development Treaty of 2011, the Secretary General of the United Nations shall submit to the General Assembly of the United Nations the official recognition of this Treaty henceforth as ratified law**
- 3. Nothing in this Treaty shall prohibit the following space-based ventures that are not activities related to space-based weapons:**
 - a. Space exploration**
 - b. Space research and development**
 - c. Testing, manufacturing, production or deployment of non-weapons systems**
- 4. Not prohibited are commercial, civil, entrepreneurial or military space-based ventures that are confirmed by the Peace in Space Office not to be any part of a space-based weapon system or to have no intention to become or support a spacebased weapon or system.**
- 5. Cooperative space-based ventures with any peoples on Earth or with members of any Cosmic Culture are encouraged.**

ARTICLE II

- 1. Each Nation State Signatory to this Treaty shall not base any weapon on any object or celestial body located in space. Permitted is the establishment of spacebased related military bases or operations, including for communication, navigation, reconnaissance, early warning, remote sensing, and surveillance that does not interfere with operations of any other satellites, with living and working in space, or with space ventures, provided that**

it can be verified by the Peace in Space Office that there is no intention to use any space-based technology or system as a space-based weapon.

2. The use of military technology or personnel for peaceful space-based purposes that do not use any equipment or facility in space related to the research and development, testing, manufacturing, production, deployment or application of space-based weapons is not prohibited.

ARTICLE III

1. Nation State Signatories to this Treaty agree to the establishment, equipping, and organizing of a United Nations Peace in Space Office.
2. This Peace in Space Office shall be composed of representatives from diverse areas such as commercial, civilian, entrepreneurial and military sectors that will check registration of space ventures and determine methods for monitoring compliance, including verification and enforcement measures that will maintain the permanent commitment of all Nation State Signatories to this Treaty.
3. The Peace in Space Office is mandated to monitor outer space to verify and to enforce this Treaty using the latest tools of technology and information sharing.
4. The Peace in Space Office will identify any entity or program that engages in activities contrary to the provisions of this Treaty and will work with all signatories to correct this situation via cooperation, not confrontation.

ARTICLE IV

1. The term “space” and “outer space” is defined as the space extending above the earth at an altitude of 100 kilometers above sea level. Weapons banned by this Treaty are considered to be space-based if they are located at or above 100 kilometers above sea level.
2. Space-based weapons are defined as being anything that is based in space that can be used to damage or destroy objects or beings in space or on Earth from a location based in space.
3. This Treaty bans all space-based weapons, including the dual-use of any spacebased object or technology when it is located in space with the intention to be used as a weapon that could damage or destroy any object or being on Earth or in space.
4. Weapons launched from the Earth that travel through space but are not based in space are not banned by this Treaty.
5. The terms space-based weapon and space-based weapons systems are defined for the purpose of this Treaty in order to identify weapons, devices, or systems that are based in any space location for the purpose of damaging or destroying, from space, any object or being that is located in space or on Earth.
6. This Treaty prohibits:
 - a. Firing one or more weapons based in space that would be intended to collide with any object or being in space.
 - b. Detonating any explosive device based in space in close proximity to any object or being in space.

- c. Directing any space-based source of energy offensively against any object or being in space or on Earth.
- d. Basing controls or systems of any space-based weapons that are or could be intended to collide with or inflict damage upon objects or beings in any location in space including on the moon, any celestial body, on a satellite, craft, station, or on any Off Planet Visitor craft.

ARTICLE V

1. The United Nations Office for Outer Space Affairs shall be responsible to coordinate the first meetings between members of Cosmic Cultures with units of the United Nations and representatives of Signatory Nation States and Indigenous First Nations.
2. A permanent Cosmic Culture Liaison will be available to the United Nations Security Council to answer questions and to provide counsel on issues of security and development of Earth.
3. The Cosmic Culture Liaison will assist in identifying and neutralizing any attempt to deploy or use any space-based weapon.

ARTICLE VI

1. The provisions of this Treaty that ban all space-based weapons shall apply to all Nation States, whether or not they are Signatories to this Treaty.
2. This Treaty shall enter into force upon the signing and ratification of the first nine (9) Nation State Signatories.

ARTICLE VII

1. This Treaty shall be open to all Nation States for signature. Any State that does not sign this Treaty before its entry into force may accede to it at any future time.
2. This Treaty shall be subject to ratification by Signatory Nation States. Instruments of ratification or accession shall be deposited with the Secretary General of the United Nations.
3. This Treaty shall enter into force upon the deposit of instruments of ratification by nine (9) Governments. For any Nation State whose instruments of ratification or accession are deposited subsequent to the entry into force of this Treaty, their ratification shall enter into force on the date of the deposit of their instruments of ratification or accession.
4. The Depositary Governments shall promptly inform all Signatory and acceding Nation States of the date of each signature, the date of deposit of each instrument of ratification of and accession to this Treaty, and the date of its entry into force and other notices.
5. This Treaty shall be registered by the Depositary Governments pursuant to Article 102 of the Charter of the United Nations.
6. This Treaty shall be of unlimited duration.

ARTICLE VIII

- 1. Any Nation State Signatory to the Treaty may propose amendments to this Treaty.**
- 2. Amendments to the Treaty shall enter into force upon acceptance by a majority vote of the Nation State Signatories.**
- 3. The text of any proposed amendment shall be submitted to the United Nations Depository who shall promptly notify all Nation State Signatories.**

ARTICLE IX

This Treaty, of which the English, Arabic, Russian, French, Spanish and Chinese texts are equally authentic, shall be deposited in the archives of the Depository Governments. Certified copies of this Treaty shall be transmitted by the Depository Governments to the Governments of the Signatory and the acceding Nation States.

IN WITNESS WHEREOF the undersigned, duly authorized by their respective governments, has

Signed this Treaty _____

At the location of _____

On this date of _____

Points of Clarification

Outer Space Security and Development Treaty of 2011

- 1. This Treaty does not ban weapons located on earth.**
- 2. This Treaty bans the “weaponization” of space. The “militarization” of space, which has occurred, requires a new definition for the purposes of this Treaty. Militaries already provide enhanced intelligence and communication, observation and data sharing, and can help to pave a**

safe way for humans to enter into the universes and for members of Cosmic Cultures to enter the Earth sphere safely.

3. The strategy of this Treaty incorporates the reality that humans have evolved into a condition of much higher consciousness than that of the past, and that we will be working with Cosmic Cultures whose situation and willingness to cooperate with Earth cultures is based upon that higher consciousness. The Signatories of this Treaty acknowledge this viewpoint because it is necessary to work within the context of the highest truth in our time, and because this is the only approach that will garner the support needed to enact this Treaty.
